Add collection to an existing ZORA record

For publications recorded in ZORA to be listed in the current AkaBer, they must be added to the correct collection. Three options are available for publications already recorded in ZORA:

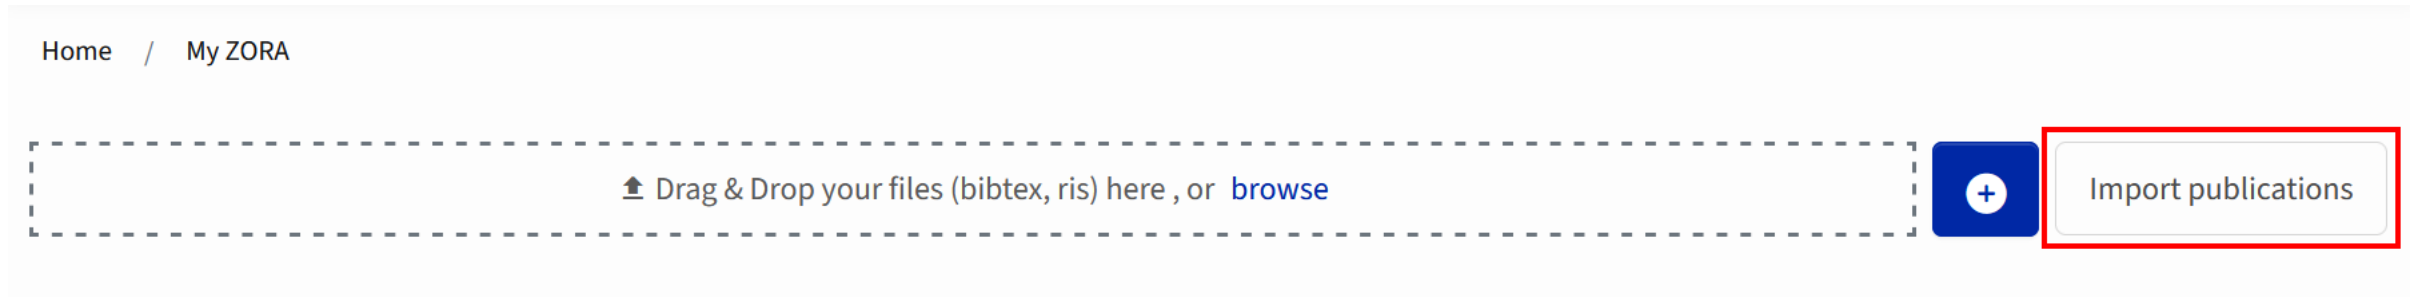

- 1) Import via DOI or PubMed
- 2) Manage collections
- 3) Change request form

1) Add collection via import tool

Use the import tool to enter the DOI or PubMed ID. ZORA will notify you if the publication has already been recorded and give you the option to add it to your collection.

To do this, proceed as follows:

- Log in to ZORA and access «My ZORA»
- Click on the button «Import publications»

1) Add collection via import tool

- Select the source from which you would like to import using the drop-down menu.
- Enter the DOI or PubMed-ID in the search bar and click on “Search”.

Import a publication from an external source

Search

-It is now also possible to search by title.

1) Add collection via import tool

If you try to import a publication that is already in the live archive, you will receive a duplicate message. By clicking on the message “Potential duplicate matches,” you can add your institute/clinic to the record.

Wang, Ming • Wang, Chengshuo • Akdis, Cezmi A. • Zhang, Luo

The highly prevalent allergic rhinitis: does new treatments move toward a cure?

2023

The system has identified some potential duplicates:

 Import 

Important: If the record is still in another user's workspace or under review, only the «View» option will be available. Select this option, then proceed to step 2 or 3 of these instructions.

The system has identified some potential duplicates:

2) Add collection via «Manage collections»

Log in to ZORA and use the general search function to find the desired publication. Then, select the ZORA entry to which you would like to add your collection.

Katalog der Fundmünzen der Ietas-Grabung 2025

A. ANTIKE MÜNZEN

NOTIZEN

Bemerkungen zum Katalog

Mitte Druck gibt Andrea Klemm und Maria Perrotti, die bei der Bestimmung und Restaurierung halfen, sowie Susanne Fritz-Kasper. Wir bitten um eine wertvolle Rückmeldung und kleine Druckfehler.

Der Katalog ist nach folgenden Kriterien aufgebaut: Zunächst sind die antiken Münzen der einzelnen Projekte, dann die ebenfalls in elektronischer Reihenfolge aufgeführten. Der Katalog ist nach Münzen sortiert und chronologisch. Münzen:
